## NEWSLETTER 2016

WELCOME!

To all our friends, colleagues,  
supporters and volunteers.

Highlights of 2016!

### BEZA MAHAFALY RESERVE 30<sup>th</sup> ANNIVERSARY

Research Centre Inauguration

The Research Centre

Ringtail Lemurs in the Special Reserve

### PAWM MADAGASCAR REPRESENTATIVES

- We would like to highlight the excellent reporting of our team in the Betioky area. They are Monsieur Ny Andry Ratsimbazafy and Monsieur Realy. As a team they have produced excellent reports in 2016. Their reports are informative and timely and always accompanied by well thought out photographs. Congratulations to them.
- In Antananarivo Mme Rakotomanga continues her wonderful job co-ordinating our work in the south west and keeping Australia and Madagascar in step together. She fulfils the roll of Madagascar representative with distinction.

### SCHOOL BOOKS

We were delighted to purchase and deliver of all the 2016 school books for 286 students at Miary and Ampitagnabo schools. The books and storage cabinets were purchased in Antananarivo by Mme Hery and transported to the 2 schools where Monsieur Ny Andry and Monsieur Realy did an amazing report on the students and teachers receiving them. The full report will be uploaded to the web site library soon.

### CLEAN WATER

We finished off 2016 starting a campaign to ensure clean drinking water in all 7 villages surrounding Beza Mahafaly Special Reserve. This will become a 2017 project and once we have all the reports assembled concerning repairs and/or new wells we will get started.

Water well
